Study Medicine and Nature Science Studies in Czech Republic  
Medical and nature science programs at Czech universities

For more than 60 years, ILPS has been preparing foreigners for admission to universities in the Czech Republic to study medicine. More than 83% of our graduates are admitted to study at medical faculties for free.

## Content

1 Medical programs

2 Study Dentistry in Czech Republic

3 Study Healthcare in the Czech Republic

## Medical programs

The programs listed below are master's degree programs that a high school graduate can apply to. After finishing studies, the graduate receives a higher education diploma, the MUDr title and the opportunity to work as a doctor. Read more about [Medical degree in the Czech Republic](#)

### Study **Healthcare in the Czech Republic**

The programs listed below are bachelor's degree programs, the majority of which last for 3 years. After finishing studies, the graduate receives a higher education diploma, but does not have the opportunity to work as a doctor. The MUDr title is conferred only after a six-year master's degree that a high school graduate can apply to. See medical [programs here](#) .
