<div class="container-s1"> <div class="text-block"> <p><strong>Study at the best Czech universities for free.</strong></p> <p>According to the law, higher education in the Czech Republic (bachelor's and master's degree studies) is free for everyone, including foreigners. The only condition is that <strong>you have to study in Czech</strong>. But don't be afraid! It is difficult, but possible.</p> <p>The chances of ÚJOP Charles University graduates to enter the best universities in popular specialties increase significantly. We have been successfully preparing foreign students for admission to Czech universities for over 60 years.</p> </div> </div>
```

Work in the Czech Republic after University Graduation

```
<div class="flex-container"> <div class="flex-item-40l"> <p style="font-size: 1.2em; text-align: left; font-weight: bold; color: #cc2c32;">What are the advantages of a diploma received in the Czech Republic?</p> <p>First, you get <strong>free access to the Czech labor market</strong> – you do not need to go through complicated procedures, which are mandatory for foreigners that do not have a Czech diploma.</p> <p>The second important argument in favor of a Czech diploma is that <strong>your education is easily recognized in any country of the European Union</strong>.</p> </div> <div class="flex-item-60r"> <p style="font-size: 1.2em; text-align: left; font-weight: bold; color: #cc2c32;">What can you do with a degree in Robotics and Cybernetics?</p> <p>The graduates of the Cybernetics and Robotics program not only find jobs easily, but also often choose between working at high-tech companies with big names and starting their own companies. Since their specialization field is not limited to today's needs of specific companies, in the future
```

they will be able to solve problems that we have no idea about today. The program prepares students not only for their first job, but also for the fifth, tenth and even for the last job in their career, sometime in 2060-70. </p></div> </div>

Robotics and Cybernetics at Czech Universities

Robotics and Cybernetics at Czech Technical University in Prague (ČVUT)

<div class="flex-container"> <div class="flex-item-30"> </div> <div class="flex-item-70"> <p>Students gain a deep understanding of engineering principles based on mathematical, physical, computer, system, robotic, cyber- and electrical sciences and develop them through creative work in laboratories and on projects. They can adjust the curriculum according to their own interests, goals and abilities.</p> <p>The challenge and flexibility of their education, with an emphasis on its fundamental nature and interdisciplinarity, on the development of creativity and thinking, on independence and collaborative skills, will be the main competitive advantage in the careers of our graduates.</p> <p>The program will prepare them well for working as engineers in the 21st century, with the flexibility to change tasks, teams, companies, and even disciplines throughout their careers.</p> </br> <p>The classes are conducted at the Faculty of Electrical Engineering at ČVUT. Find the detailed admission requirements here. (updated as of 20.04.2023)</p> <p>Admission requirements: SCIO or faculty test in mathematics.</p> <p>Level of the Czech language proficiency: B2. Find out more about language competence.</p> </div> </div>

Preparatory course at ÚJOP Charles University for Robotics and Cybernetics

Description of the preparatory course

<div class="flex-container"> <div class="flex-item-60"><p>The preparatory course at ÚJOP Charles University includes intensive Czech language learning and training in special subjects, the knowledge of which you will need at the entrance exams and during your further studies. The course is also suitable for those who are starting to learn Czech from scratch. Our language certificate is recognized by more than 80 faculties of state universities, which means that you won't need to take an exam in Czech when you apply to a university.</p></div> <div class="flex-item-40"><p>During the course, you will study: Intensive Czech language course
(including professional terminology) Specialised subjects: Mathematics Physics Informatics English </div> </div>

More about the course
