Coming to the Czech Republic is very exciting of course. Maybe this is your first independent trip abroad. To make it easier for you, we have prepared a detailed guide on how to get from the airport to the school.

Please note: *if you are travelling to the Czech Republic by other means (train, bus or car), we recommend downloading the mobile app "PID Lítačka". It is available to download on [Google Play](#) and [Apple Store](#) . It offers all Prague integrated transport tickets. You can even find your connection in the app and the app will also suggest the most suitable ticket for your trip.*

7. FROM PRAGUE AIRPORT TO THE DORMITORY / THE SCHOOL

7.1. Withdrawing cash at the airport

We kindly remind you that in the Czech Republic, payment is made in Czech crown (koruna). Foreign currency is usually not accepted. Payment by card is common. We recommend withdrawing a small amount of money in Czech crowns (500-1000 CZK) upon arrival for transport and other small expenses. There are ATMs at the airport.

ATTENTION: We do not recommend using the exchange offices at the airport and at the hotel. They have a large margin. We recommend watching two short videos on YouTube before you arrive:

11. CLASSES

The classes start on: 4 November 2024

Please note: For students who are waiting for their visa, which means they will arrive in the Czech Republic later and start online classes from home, a good internet connection is essential.

11.0 Academic year

Academic year:

- is divided into trimesters
- during each trimester the study progress will be carefully monitored, at the end of each trimester there will be language exam and exam or credit in academic subjects
- teaching is in English and is adapted to the students' level of language proficiency at each stage of the academic year
- the required entry level of English for students is at least B2
- the study programme includes Czech lessons, which are conducted in an interactive and practical way and enable students to communicate in everyday situations in the Czech environment

11.1. Necessary equipment

You will receive some of the lessons, teaching materials and study information from us solely in electronic form. Therefore, you will need a laptop or tablet with a keyboard (not just a phone!) to study successfully in the preparatory course and also for your future studies at universities in the Czech Republic. You will also need headphones, a microphone and a webcam (either all built-in or connected externally).

You will need a laptop for the entire academic year, as part of your studies (homework, asynchronous learning, communication with teachers and administration, webinars, etc.) will take place on the Microsoft Teams platform. The laptop can also be purchased after arrival in the Czech Republic, for example online in an e-shop (e.g. Alza.cz).

11.2. Necessary equipment for efficient studying in Microsoft Teams:

The hardware requirements to run MS Teams on a computer (Windows for MS or Mac) are quite modest. A regular "office setup" on your computer will be enough. Of course, the more powerful the computer, the better the quality of the online lessons. Please also check if your PC cable needs an adapter for EU sockets.

Before the classes start, watch the tutorial video on Microsoft Teams.

11.3. Access to university systems and Microsoft Teams:

Each student must log in to the university system (CAS) and MS Teams before starting their studies. Each student will receive an email with their individual log in details and instructions how to proceed.

Click here for instructions on how to register in MS Teams.

Click here for instructions on how to change your CAS password.

11.4 General conditions of study

- participation in all tests, examinations and credits is compulsory for all students
- after the first trimester, students may be reassigned to new class groups based on the results of the trimester exam, results of the placement test and an assessment of their attitude to study (attendance, activity in class, on-time submission of homework, etc.)
- the teaching process in the classes is adapted to the students' abilities and their results in the continuous assessment and end of term tests
- students are entitled to a consultation on topics they have not understood
- students' attendance is recorded in the programme. Absences (i.e. illness, late arrivals to classes, or other serious reasons) must not exceed 20% during the course of the study. If a student's absence exceeds the permitted limit, the procedure according to the Disciplinary Regulations of the ÚJOP UK (warning, suspension and expulsion from studies) is followed
- students are obliged to follow the rules of conduct applicable in the programmes of the ÚJOP UK, we provide a safe learning and working environment for all students, teachers and staff. Any acts of discrimination, harassment or bullying based on race, nationality, gender, disability, gender identity, sexual orientation, religious beliefs or socio-economic status are not tolerated and will be sanctioned according to the disciplinary regulations

- in the case of accommodation in the dormitories of the ÚJOP UK, students are obliged to follow the dormitory rules and the rules of respectful coexistence

12. NOSTRIFICATION (Diploma recognition)

When applying to a Czech university, applicants (including foreigners) must provide evidence of their previous education (a report card, certificate or diploma). If you have completed your education in a country other than Slovakia, Poland, Germany, Hungary or Slovenia, your certificate or diploma must be recognised so that you can continue your studies in the Czech Republic.

To have your document recognised by the Czech Republic as equivalent to a Czech one, you must go through a nostrification procedure. The nostrification process starts soon after you arrive at the study centre.

Students of the preparatory courses of ÚJOP UK receive help with collecting and submitting documents from academic supervisors. This service is free of charge, you do not have to pay an additional fee for assistance with diploma recognition - the cost of this service is included in the course fee. You only pay for the cost of notarization, translations and government/faculty fees for the nostrification process itself.

It is therefore necessary to bring the original documents with you to the Czech Republic for nostrification. The list of documents required and detailed information on the nostrification process is available [here](#).

If you have any questions about the nostrification, please contact the study department or your academic supervisor: nicole.bulantova@ujop.cuni.cz.

All students will have a wonderful, interesting, but also challenging year with us. You have to master the foreign language, terminology and subject content and adapt to life in a foreign country. It is therefore essential that you make your studies a permanent priority. Even further study at university will require time and effort from you.

We will support you as much as possible on your educational journey and prepare a stimulating, motivating and pleasant environment for you. We will offer you support in choosing a university, making an application and getting nostrified. However, the essential part of the work remains with you, the student - your motivation, diligence, fulfilling your study obligations and adhering to all the conditions of the programme.

We can do it together!
